

# What Happened in ISEC 140?

Overnight between September 26 and 27, under the guidance of SVP David Luzzi, **motion sensors were installed under the desks of all workers in the ISEC labs without notification or consent.**

An open letter, signed by PhD student workers, Post Docs, and Faculty on all floors of ISEC was sent to Luzzi, protesting this act of surveillance. The monitors have still not been removed.

Instead of removing the monitors, Luzzi scheduled a “town talk” for 9am today. Notice about this early morning meeting was sent less than 48 hours prior and only to faculty.

No clear path forward was established at this meeting.

If you would like to show your support and stand up against surveillance technology at Northeastern, please email/call the office of President Aoun: [s.cromwell@northeastern.edu](mailto:s.cromwell@northeastern.edu), 617-373-2101 and ask that the motion sensors are removed immediately.
